PROJECT CLOCKS

Models Available:

All AE Series Project Clocks have: 120 VAC 60Hz power with power cord or plug-in power module (other power optional), Built-in controls for setting and controlling all clock / timer functions (remote switch panels optional). Black Anodized Aluminum Enclosures for indoor installations

These clocks show DDD HH MM SS - Days, Hours, Minutes and Seconds. Alternately they can be used as Julian Clocks - showing the day of the year in 24 hour format or as a Project Completion Clock - showing DDD HH MM SS until the project completion date.

These clocks can also function simultaneously, as a presettable up counting elapsed timer.
